

Today's Date: _____

Dear _____

Approximately two weeks ago, you participated in a health survey that we conducted here in the _____ area.

We're hoping that you received the health material we sent out and that you find it to be quite informative. As stated before, our goal is to assess the health needs of the community, provide FREE services and FREE information for those who would like to learn simple ways of improving their overall health.

Speaking of health, were you aware that one of the main definitions for Health in humans is "the general condition of a person's mind, body, and spirit?"

Therefore, our team here at _____ believe that the spiritual component should always be included in any health improvement program. As a result, we are offering FREE BIBLE STUDIES to any person who may be interested. These studies will teach each person how to have an increase in faith, help relieve stress, get rid of anxiety, and help improve in every other aspect of life.

If you are interested, please call us @208-267-6397. Please clearly state your name, number, and address. Let us know if you would like these studies mailed to your home, or if you would like to have one of our Bible Workers visit you in person. If you want a personal visit, please tell us the day of the week and the time that is most convenient for you.

Once again, thank you.

Health Educator/Team Leader
