

Medical Missionary Work Done Safely by Women Door to Door

"We have come to a time when **EVERY MEMBER** of the church should take hold of medical missionary work. The world is a lazar house filled with victims of both physical and spiritual disease. **Everywhere people are perishing for lack of a knowledge of the truths that have been committed to us.** The **members** of the church **are in need of an awakening,** that they may realize their responsibility to impart these truths..." {7T 62.1}

"From door to door His servants are to proclaim the message of salvation."

"You will be prepared to walk from house to house, carrying the truth to the people. Sometimes you will find it trying to do this kind of work; **but if you go forth in faith, the Lord will go before you,** and will let His light shine upon your pathway. Entering the homes of your neighbors to sell or to give away our literature, and in humility to teach them the truth, **you will be accompanied by the light of heaven,** which will abide in these homes." -- Review and Herald, May 24, 1906. {Ev 114.3}

"**Greater efforts should be put forth to educate the people in the principles of health reform.** More cooking schools should be established, and some should labor from house to house giving instruction in the art of cooking wholesome food." (CME 36.3)

Because of what we are told in the above quotes, it has been very heavy on my heart how to do this work most effectively for women.

However, with all of our busy schedules today and the fact that **it is dangerous for women to go by themselves door-to-door,** I have really been asking God what is another way that we could get into the homes of the people with the health message. I was impressed with the following:

YOU CAN GO THROUGH THE WHITE PAGES AND CONDUCT A HEALTH SURVEY OVER THE PHONE (women as to speak with the woman of the house)

(Try a minimum of 30 minutes if at all possible. Some may choose to do 1 hour)

Below is the speech I was impressed to type out. You may change the speech as you see fit or change the Health Survey below as you see fit as well. Lord Bless....Christine G.

If you would like the health survey emailed to you, please send me an email tell me so. Send to newstarthealth.foryou@yahoo.com

HOW TO DO OVER-THE-PHONE SCRIPT:

Get your local white pages and start at the beginning. Try doing this for one hour minimum each day at a time that is not too early or too late (preferably not after 6:00 pm and not before 9:00 am).

OVER THE PHONE SCRIPT:

Hello, my name is _____ and I am with _____ (put the name of your health ministry here, but don't use MISSIONARY in your title because you may put up prejudices right away.....If you are a Nurse, Doctor, Practitioner, Therapist, etc., be sure to include that as well).

We (I) are calling those in the community because we (I) would like to conduct a HEALTH SURVEY, assessing the needs of the community.

We realize there are many people who either do not have health insurance and/or who do, but would like to learn a healthier way of getting to the root of their conditions without having to constantly mask them with medication.

IF offering services say this: (ALSO, we would like to let everyone know of the FREE VIBRANT HEALTH INFORMATION & SERVICES that are provided in the area.)

Is it possible that I may take just a couple of minutes of your time to complete our Health Survey?

If they say yes, conduct the following and be sure to get their name, address, email address...Be sure to let them know that you are in the area and if they need any health information or have some type of problem, they may call you. Please be sure to let them know all services you provide. AND....at the very end of your survey, **if you have a laptop and a projector, ask them if they would like a free power point health presentation done in their home** (never go alone doing this unless you personally know the people) **and that they would be able to invite any & everyone.** Just let them know you will need a little area to set up. If it's only them or one other person, you really don't need a projector.

BY THE WAY: Get all the different health tracts you can on different health issues so that you may mail them according to however the survey was answered. I will be conducting a class this Friday on this. If you are interested in learning, please CALL:
